4 olfactory experiences

1. *Winter Walk* - The cool, frosty feeling of walking through the park.
2. *Back from my garden* - The pleasure of a soothing sensation that envelops us as we push open the door.
3. *A journey from my window* - A breeze from our forests that carries me to new discoveries.
4. *A festive memory* - An energizing and sparkling creation that will transport you.

Individual antibacterial sprays

Individual size of
60 ml

Plastic container

4 scents inspired by
Quebec

Authorization and quality

Authorized by Health Canada, our antibacterial solutions can be used for hand disinfection by friction. For air and surfaces, its effectiveness is strictly soothing and pleasant. A very subtle work in the choice of the olfactory components added to the Quebec know-how makes it a unique product.

Offered in four olfactory experiences, it **combines sanitary efficiency and immerses us in our memories of Quebec**. It adds to this primordial act of hygiene sensations of nature, freshness and escape.

NPN 80099611

Olfactory creation by Stimulation Déjà Vu, made at the Derme&co laboratory, high-end products, in Montreal.
