

LOW BATTERY?

According to recent studies, 67% of people are unsatisfied with the currently available on the go charging solutions. Being stuck by your phone, as you wait for it to finish charging by a wall or in a locker, is no longer a viable option.

LIFELINE offers an innovative solution, where guests can borrow a portable charger for free and bring it back to any of our stations, similar to bike sharing (Bixi). You will finally be able to continue your activities, while charging your phone on the go.

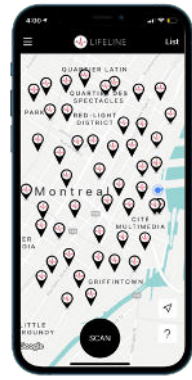

HOW IT WORKS

Scan QR code

Unlock and grab a portable charger

Return to any LIFELINE station

BENEFITS AND SERVICES INCLUDED

Conferences | Events

Participants will never miss a moment, by offering a flexible charging option, which allows them to move and use their phone, as it is charging

Service includes:

- 24/7 Clientele Service
- Unlimited Portable Chargers
- Content of your Choice
- Data and survey (email, phone #, DOB, NPS score)
